

STATE OF CALIFORNIA

CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD

Base Year Modification Request Certification

Part 1: Generation Study - No Extrapolation Diversion Data

To request a substitution for a previously approved base-year used in calculating the diversion rate for your jurisdiction, please complete and sign this form and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-6199 to be connected to your OLA representative.

Mail completed documents to:

California Integrated Waste Management Board  
Office of Local Assistance  
1001 I Street, 9th Floor  
PO Box 4025  
Sacramento, CA 95812-4025

General Instructions:

Please select the **ONE** choice below that best explains your request to the Board.

- ☐ 1. Use a recent generation-based study to calculate our current reporting-year generation amount, but not officially change our existing Board-approved base year.
- ☒ 2. Use a recent generation-based study to officially change our existing Board-approved base year to a new base year.

The shaded cells on these sheets are protected. If you have problems using these sheets, please contact your Office of Local Assistance representative.

Section I: Jurisdiction Information and Certification

All respondents must complete this section

I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:

Jurisdiction Name		County	
City of Redding		Shasta	
Authorized Signature 		Title Solid Waste Supervisor	
Type/Print Name of Person Signing	Date	Phone ( ) Include Area Code	
Bonnie Low	03/24/2004	530-224-6205	
Person Completing This Form (please print or type)		Title

<b>Section II: Information for New Generation-Based Study for Existing or New Base Year</b> <b>Attach additional sheets if necessary— reference each response to the appropriate cell number (e.g., 4).</b> <i>Note: New base years must be representative of a jurisdiction's disposal and diversion.</i>			
1. Current Board-approved existing base-year:		2. Proposed new generation-based study year:	
1990		2002	
3. Explain how the proposed generation study year is representative of average annual jurisdiction disposal and diversion:			
<p>The City chose 2002 as the proposed new base year (NBY) because it is a year that is representative of both disposal and diversion trends. There were no large spikes or decreases in either disposal or diversion during 2002, making this an appropriate year to consider as a NBY. The data proposed in this study reflects the real disposal and diversion practices in 2002, as well as the new per capita generation. The City has expressed concerns in previous Annual Reports that the CIWMB Adjustment Method does not adequately reflect the effect of City-sponsored, as well as private, diversion efforts within Redding. In particular, the supporting documents that the 1990 base year is based on do not adequately measure</p>			
4. Enter your diversion rates below.			
Diversion rate calculated using existing base year		Diversion rate calculated using new generation-based study	
a. 30 %		b. 55 %	
For existing base year pounds/person/day based on generation		For new generation based study pounds/person/day based on generation	
8.8		13.40%	
Residential generation 46 % Non-Residential Generation 54 %		Residential generation 21% % Non-Residential generation 79% %	
Population existing generation-based study 66,462		Population new generation-based study 84,600	
5. If there is an increase between 4a and 4b, please explain how the new diversion rate is consistent with your current diversion implementation efforts. If the proposed new generation tonnage results in an increase in your pounds/person/day, please explain how this is consistent with your current diversion implementation efforts and provide any examples, e.g. change in jurisdiction's demographics.			
<p>The resident population has increased 27.3% from 1990, and taxable sales have increased more than 50%. Because Redding is the largest metropolitan area in far northern California, it serves as the business, retail, medical-services, and industrial hub of the north state. As such, Redding experiences a disparity between the full-time resident status (night-time population) and the visitor/worker/shopper/patient population (day-time population), which is not reflected in census bureau data nor, consequently, when using the Adjustment Method. However, this population fluctuation sharply impacts the disposal rate for the City of Redding as non-City residents contribute significantly to the waste stream. This is one of the reasons the City determined that a new base year study was needed. The building trend the City has been experiencing in recent years also supported the need for a new base year study. For example, from 2001 to 2002, Redding saw a 35% increase in total dwelling units, a 20% increase in demolition permits, a 22% increase in glass received for review, and a</p>			
6. If the difference between the proposed diversion rates in 4a and 4b is greater than 5 percentage points, please explain the specific reasons for the difference. (For example: new/improved curbside diversion programs.)			
<p>The new base year study reflects the diversion tonnage resulting from the new, expanded, and improved diversion programs implemented by the City. The majority of the City's diversion programs have been implemented since 1990; including, automated single-stream curbside recycling, commercial recycling of cardboard, office paper and mixed recyclables, drop-off recycling at the City's transfer station, and a new Materials Recovery Facility (MRF). The City has invested heavily in equipment, infrastructure and personnel since 1990 to meet the demands of AB939. These changes to the City's programs were not represented in the initial base year study. The original base year study did not adequately reflect the diversion practices by private third party recyclers and other businesses in the City, nor did it reflect the diversion programs implemented by State Agencies. Redding has also found that the CIWMB Adjustment Method does not adequately reflect in its generation calculation the increase caused by the construction activity resulting from the growth in the City. The City now has the ability to accurately track data from its diversion programs since the landfill and transfer station scale house soft</p>			

<b>7. Disposal Tonnage: (enter values)</b>	23399	<b>69072</b>	<b>92471</b>
	Residential	Non-Residential	<b>Total</b>

Please select the **ONE** choice below that best explains your **disposal** data and complete the required tables.

☒ a. All tons claimed are from the Board's Disposal Reporting System (No explanation required. Go to Section 8.)

☐ b. All tons claimed are from a 100 percent audit of hauler and self-haul tonnage. (Please complete Reporting Year Tonnage Request and Modification Certification sheet found at <http://www.ciwmb.ca.gov/lgcentral/forms/rytnmdrq.doc>)

☐ c. Some Disposal Reporting System data were corrected. (Please complete Reporting Year Tonnage Modification Request and Certification sheet found at <http://www.ciwmb.ca.gov/lgcentral/forms/rytnmdrq.doc>)

**8.** In the table below, list the summarized diversion activities, and diversion data records that support your claim and are available for Board audit. (Note: The Board expects the jurisdictions to be able to provide all back-up documentation, if requested) Include type of record and location—for example, weight tickets from transfer stations. This section should capture all diversion tonnage (form will perform all addition calculations). If any diversion is from restricted wastes, [agricultural wastes, inert solids (e.g., concrete, asphalt, dirt, etc.), white goods, and scrap metal] please identify those programs/waste types and fill out section 10. Please mark as Attachment 8 all copies of survey forms.

\*Please provide detailed Non-Residential waste information in Section 9.

\*Please provide detailed non-Residential waste audit information in Section 9.

**Note: The Board has indicated that it will be scrutinizing total source reduction amounts greater than 5% of total generation. Please be prepared to provide additional details substantiating your claim.**

### 9. Specific Non-Residential Sector Waste Audits-Top 10 Non-Residential Generators

Please complete this table for the top 10 non-residential generators that were surveyed. List each non-residential generator separately from largest to smallest, based on total diversion tons. Audit reference number ties to your audit sheets.

**(Form will perform all addition calculations).**

Please provide an attachment 9 which includes all of the generators surveyed. Include for each generator (use type of generator in lieu of specific business name) diversion activity and material type and associated tonnage for each diversion activity/material type, and applicable conversion factors/sources. Include copies of survey form(s) used.

Type of Non-residential Generator	Audit Reference Number	Specific/Major Diversion Activities include material type (e.g. paper recycling, grasscycling). (List activities on one line)	Source Reduction Tons	Recycling Tons	Composting Tons	Total Diversion Tons	Percent of Total Generation (Total Diversion Tons/Total Generation in Section 8)	Survey Method Phone (P) Mail (M) On-site (O) Other ____

Summarize the non-residential diversion activities for the top 10 generators quantification methodology, and applicable conversion factors and sources. (e.g. Cardboard recycling: quantified by monthly tonnage receipts provided by the contact person at the business)

**10.** For each restricted waste type [i.e., agricultural waste, inert solids, (e.g. concrete, asphalt, dirt, etc.) scrap metals and white goods (PRC Section 41781.2)] and associated program, please provide the following information:

**a.** If the diversion program started on or after January 1, 1990, complete the following table.

(Note: program name refers to one specific diversion program for that waste type; (e.g., diversion conducted by City Public Waste Dept).

Restricted Waste Type	Specific Program name	Year started	Tonnage
Scrap Metal ▼	Scrap Metal (new recycling facility)	2000 & ongoing	8464
Inert Solids ▼	Processed C & D / Soils from City Department (Separate documentation)	2001 & ongoing	27221
Inert Solids ▼	Cal Trans C & D recycling / reuse	1994-95 & ongoing	2100
Inert Solids ▼	Leckey Land Clearing	2001	2680
Inert Solids ▼	Axner	pt. 1990 & ongoing	2204
Inert Solids ▼	Sunrise	2002	1659

**b.** If the diversion program started before January 1, 1990, on a separate sheet, marked attachment 10b, provide the following documentation: (Note: If documentation for a waste type and program has already been approved by the Board, you do not have to provide an attachment 10b for that waste type and program.

Instead please provide date of Board approval of previously submitted information.

\_\_\_\_\_ (Date)

If documentation is not available, go to 10d.

- How the diversion was the result of a local action taken by the jurisdiction, which specifically resulted in the diversion [PRC Sec. 41781.2 (c) (1)].
- That the amount of that waste type diverted from the jurisdiction in 1990 was less than or equal to the amount of that waste type disposed at a permitted disposal facility by the jurisdiction in any year before 1990. (Note: this criterion is applicable to the entire jurisdiction, not to individual programs [PRC Sec. 41781.2 (c) (2)]). Please include documentation.
- The jurisdiction is implementing, and will continue to implement, the diversion programs in its Source Reduction and Recycling Element.

**c.** If the diversion program started before January 1, 1990, and the documentation requested in 10b is available (but not yet approved by the Board), complete the table below for each program claimed:

Restricted Waste Type	Specific Program Name	New base year or reporting year diversion tonnage
